

Sustainability Support and Information Centre

Looking for a sustainability partner?

Having a sustainability query?

SSIC toolbox
the best fitting
business partner

SSIC supports and facilitates sustainable technological development and educational activities by making use of the match-making toolbox.

SSIC gathers sustainability experts in Europe and is the central contact point for industry, technology developers and policy makers, when it comes to questions regarding sustainability in different sectors, e.g.:

- **resource extraction**
- **resource efficiency**
- **substitution**
- **product design**
- **recycling**
- **material chain optimization**
- **urban mining**
- **green chemistry**
- **separation techniques**
- **nanotechnology**
- **metallurgy**
- **mining**
- **policy support**
